Description of the event:

Dr.V.Subramanyam, delivered that Many pathologic disease can be considered as related to an Endogenous toxicological moves and in time dependent way (kinetics and dynamic of the process). In this work starting from the analysis of relevant literature involved with different disease and related to the endogenous local micro- environment some global conclusion useful as new tools for innovative pharmacological strategies will be submitted to the researcher. Physiology, pathology concept linked to the endogenous toxicological local micro-environment status as new research instruments. The same carcinogenesis process can be related also to endogenous agents that may have a major contribution in spontaneously process. (Reactive oxygen species (ROS), which are involved in multiple cellular processes by physiologically transporting signal as a second messenger or pathologically oxidizing DNA, lipids, and proteins).

Description about the event:

Sophia Almeida delivered that Pharmacy profession is always a choice of preference for the medical aspirants. There are many other medical or paramedical courses but from career opportunities point of view, the profession of pharmacy provides many job opportunities in this field. Now a day's pharma industry and profession are experiencing rapid changes due to advanced technological innovations and ideas sweeping across the world. Hence these changes give better opportunities to the pharmacy profession and it is imperative to evolve a Pharmacy academic programme that suits the basic thirst of the nation like providing medicines at affordable prices, community health care etc.

She has given information regarding General Job opportunities for a Pharmacy Professional:

- Pharmacist (Industry/Hospital/ Clinical/ Community)
- Pharmacoepidemiologist/data analyst (latest emerging field)
- Retail/ Wholesale Chemist/Druggist Business
- Preparing Prescription to Patients (not allowed in India)
- Drug Therapist
