

Quality initiatives taken by IQAC from the date of constitution

Ideation	Adoption	Impact
To incorporate technical skills among students In handling various instruments related to their profession	Courses like handling of animals, analytical instruments, HPLC were designed and certificates will be given to students who completed their course	Student will acquire knowledge and skill in handling the respective equipment.
To incorporate conceptual knowledge in students	Courses like advances in drug delivery, IPR were designed and certificates will be given to students who completed their course	Student will be benefitted by acquiring knowledge in recent concepts and will be advanced in research perspective
To give extra practical knowledge other than the syllabus	Adopted to conduct extra experiments apart from the respective syllabus especially in subjects like microbiology and chemistry	Student will gain additional knowledge and can learn techniques in respective experiment
Encouraging students and faculty towards a culture of book reading	Initiation of best library user awards	Students and faculty were utilizing library efficiently
Collaborative quality initiatives	<p>1. "proud to be pharmacist" a motivational talk was conducted for first year B.Pharmacy students towards pharmacy profession) by a resource person from Acharya and BM Reddy college of pharmacy in forenoon session.</p> <p>2. NAAC and NBA accreditation awareness programme by a resource person from Acharya and BM Reddy college of pharmacy.</p> <p>3. IQAC raise awareness of the importance in selecting top scopus journals and avoiding malpractices through conducting programme</p> <p>4. "concept and carriers of novel drug delivery systems" an orientation programme for final year B.pharm student students by Dr. pyla sreerama murthy, Principal of KITS college of pharmacy.</p>	<p>Students were motivated and acquire knowledge regarding pharmacy course.</p> <p>2. Faculty acquired knowledge and learn the importance of NAAC and NBA accreditation.</p> <p>3. Young faculty who were eager to write academic papers acquired knowledge and learn about ethics.</p> <p>4. Since the session is required for their final year of study and helps students learn about current emerging trends, it is beneficial to final year students.</p>

Conduction of seminars	A seminar was conducted on “radio pharmaceuticals and quality control” to create awareness about radio isotopes among students	Students were benefitted and gained knowledge
	A seminar was conducted on “Auto docking” to impart knowledge among students
