COURSE SYLLABUS

DURATION: 42Hrs

Certificate course: A value added course on induction training of medical coding

Course description:

The department of pharmacy practice offers a value added course on induction training of medical coding. The course provides a comprehensive knowledge on medical terminologies and coding procedures. Hence, providing all the technical and specialised skills required for medical claim submission and patient medical record transcription.

Course objectives:

The course is precisely constructed to provide the following knowledge and skills:

1. Understanding of daily hospital activities
2. Attain good grip over medical terminologies
3. Documentation techniques involved in storing medical records
4. Transcription of medical records based on ICD-10-CM guidelines
5. Procedures and techniques for preparing medical claims
6. Understand the requirement of confidentiality with medical records in regard with medical ethics.

DAY 1: 03-08-2019 (6Hrs)

Module:

Detailed information of various aspects of medical facilities will be provided in this introductory session, and the significance and scope of medical coding in these aspects will be explained. The session will include a brief introduction to etymology along with grammar, spelling and pronunciation of various medical terms and also learn about the various aspects of coding process and techniques of manual coding. Coding involves a set of rules to be followed; therefore the standard coding guidelines will also be taught in this lesson. This introductory session will also include CPT Coding where the students will understand its significance in the field of coding. This will be followed by the CPT Coding from the integumentary system.

DAY 2: 10-08-2019 (6Hrs)

Module:

The various responsibilities of coders and billers will be taught in this lesson along with word and body dynamics. The student will learn about the ICD-10-CM coding for infections and

blood diseases. The CPT coding classes will include the coding for the reproductive system and radiology.

DAY 3: 17-08-2019 (6Hrs)

Module:

The student will be made aware of the various career opportunities available for medical coding and billing specialists. This lesson will also provide the information of the various instruments and equipments involved in a medical facility along with the various specialities and specialists available. The ICD coding session will include ICD-10-CM coding for pathology, the respiratory system and mental disorders whereas, the CPT session will include CPT coding for medicine and anaesthesia.

DAY 4: 24-08-2019 (6Hrs)

Module:

The students will be taught regarding the significance of medical records for a coder and they will learn about the diagnostic medicines and important medical abbreviations. The ICD sessions will include ICD-10-CM coding for the digestive system and pregnancy whereas, the CPT session will include CPT coding evaluation and management services.

DAY 5: 31-08-2019 (6Hrs)

Module:

This session involves the significance of documentation in medical records and terminology lessons on human anatomy and physiology. The ICD lessons will include ICD-10-CM coding for skin and prenatal period. The student will learn about coding for surgery and musculoskeletal system.

DAY 6: 07-09-2019 (6Hrs)

Module:

In this session, the student will learn to distinguish the different dictation formats. This session also includes about the management of medical records along with an overview of pharmacology. The ICD sessions will include ICD-10-CM coding for symptoms and complications. The student will learn about coding for digestive system, urology and reproductive system.

DAY 7: 14-09-2019 (6Hrs)

CERTIFICATE COURSE SUMMARY 2019-20

COURSE CODE AND NAME : VAMC and Induction training of medical coding.
COURSE DURATION : 42Hrs
BRANCH AND YEAR OFFERED: IV B.Pharmacy & IV Pharm D
COURSE INSTRUCTORS : Amit Kumar, Asso.Professor

COURSE OUTCOME

Course is precisely constructed to provide the following knowledge and skills:

1. Understanding of daily hospital activities
2. Attain good grip over medical terminologies
3. Documentation techniques involved in storing medical records
4. Transcription of medical records based on ICD-10-CM guidelines
5. Procedures and techniques for preparing medical claims
6. Understand the requirement of confidentiality with medical records in regard with medical ethics.

COURSE TYPE : Self framed course

ASSESSMENT MODE

ATTENDANCE : 42 Hours
NO.OF PARTICIPANTS : 111
SCHEME OF EXAM : MCQ Offline
DATE OF EXAM : 18-09-2019
