## REPORT ON WORLD ENVIRONMENT DAY

**Place:** Surampalem,

**Date:** 05-06-2023

World Environment Day (WED) is celebrated annually on 5 June and encourages awareness and action for the protection of the environment. It is supported by many non-governmental organizations, businesses, government entities, and represents the primary outreach day supporting the environment.

The World Environment Day theme for 2023 is "Solution to plastic pollution". Taking this into consideration students of Aditya College of Pharmacy set a reminder that people's actions on plastic pollution matters. The steps governments and businesses are taking to tackle plastic pollution are the consequence of this action. It is time to accelerate this action and transition to a circular economy

On the other hand they taught people about the significance of planting trees and how we could get recover the catastrophic effect on our nature.

## REPORT ON THE "SWACHATHA" CONCEPT

**Place:** Gorinta

**Date:** 19-07-2023

Swachh Bharath is a national level campaign by the Government of India towards the sanitation problem in our country. This initiative is taken to decrease the sanitation related problems and to promote a healthy and hygienic country. Taking this into consideration, the students of Aditya College of Pharmacy had conducted sanitation program at Gorinta Village. In the context of the program, the sanitation program was commenced by the first year, second year and final year students of B. Pharmacy, in-order to raise awareness about SWACHATHA. The sanitation program was done with help of bleaching powder and phenol. The bleaching powder was sprayed on the edges of the road and in the primary school. The phenols were distributed in the primary school present in the village and educated them regarding sanitation with the help of phenols, in-order to prevent occurrence of any diseases.

**Benefits of Swachathath:**

- Helps in avoiding diseases caused due to unhealthy environment.
- Cleaning with bleaching powder helps in eliminating the germs that causes diseases.
- Phenols are strong disinfectants and toilets cleaned with phenols are more hygienic to use.

## REPORT ON THE "GO GREEN" CONCEPT

**Place:** Pulimeru

**Date:** 09-08-2023

"Go Green" is a movement that encourages people to adopt eco-friendly practices to build a more sustainable future. The Go Green initiative works to improve the quality of air, water, and food while conserving natural resources. As part of the Eco Club activities, Aditya College of Pharmacy conducted plantation program in the nearby Village Panchayat. The GO GREEN concept was conducted at Pulimeru village. In the context of the program, the plantation program was commenced by the first year, second year and final year students of B. Pharmacy. According to this concept, the students had participated in planting trees at Pulimeru village. The motto behind this was to create awareness among people towards saving our Mother Earth against the pollution that has been increasing now-a-days, to reduce the increasing global warming and to turn our planet into a beautiful green planet.

The benefits of GO GREEN are

- Reduces global warming and environmental pollution.
- Conserves natural resources.
- Safeguarding natural biodiversity from declining.
- Promotes a healthier life.
- Reduces energy costs and making it economically sustainable.

## REPORT ON THE "RRR" CONCEPT

**Place:** Divili

**Date:** 09-08-2023

As part of the Eco Club activities, Aditya College of Pharmacy conducted an awareness program at Divili village. In the context of the program, the awareness drive was commenced by the first year, second year and final year students of B. Pharmacy. The RRR concept was conducted at Divili village at Mandal Prajaparishat Pradmika Pathashala. The students had educated about the importance and also created awareness about the RRR – REDUCE, REUSE & RECYCLE Concept of waste management, which help to eliminate waste and protect the environment to the children. The children of the primary school were very much delighted and understood the concept and promised to implement the concept in their life and extend their hands to protect our mother earth.

The students educated the children that

- REDUCE means to cut down the amount of trash we generate on daily basis.
- REUSE means to explore new creative ways to use the thrown out things.
- RECYCLE means to collect and process the existing items and turn them into new products.

By following these RRR concept, we can protect our MOTHER EARTH. We must use thing wisely, and make sure there is enough for us and the generations that come after us. This Eco Trio rules guide us to take care of our planet by saving our Earth, Energy and helps in reducing Global Warming which is increasing at an alarming rate.
