### A Report on

### A Seminar on Opportunities in Drilling for Petroleum Engineers

**Event Name** : Seminar on Opportunities in Drilling for Petroleum Engineers

#### **Introduction to Event:**

Drilling for hydrocarbons is the one of the career for Petroleum Engineers . They have diversified career paths to follow for following, but taking a Drilling path will be challenging working in teams. They work with reservoir engineers, production engineers, completion engineer. The knowledge of Drilling of subsurface is very important to understand the behaviour of the wells, reservoir of hydrocarbon. After completing engineering there are many opportunities in Drilling for hydrocarbon is one of the critical information for the identifying prospects, it also requires the knowledge of the subsurface. A knowledge of Drilling is must for Petroleum Engineers irrespective of onland or offshore . There are plenty to start and learn, without Drilling confirmation of hydrocarbons existence is difficult to exist. This seminar helps in identifying the opportunities in Drilling.

- How to get work safe in upstream oil field production
- Skills required for working in interpretation of the wells, subsurface maps and marking horizon of pay zone and reservoir.
- Choosing of Software used for the interpretation of the geological sedimentology
- Joining in training for operation for identification of facies and structural mapping
- Various opportunities and choosing one among them geoscientist, well site geologist, production geologist.

**Closing remarks-description:**

This 1-Day programme was conducted successfully fulfilling the goal of making students learn the process of drilling and completions . As it was one of the good job opportunities, all the participants were involved and interacted well. Finally, the program successfully came to end by giving necessary knowledge to students in the field of drilling such as drilling tools, drilling fluids and completion tools.
