A Report: Guest talk on logging opportunities and prospects for petroleum engineers

Event Name: Guest talk on logging opportunities and prospects for petroleum engineers

Introduction to Event:

Logging for hydrocarbons is the one of the career for Petroleum Engineers . They have diversified career paths to follow for following, but taking a Logging approach for intepretation of logs. They work with drilling engineers, reservoir engineers, production engineers. completion engineer. The knowledge of Logging of subsurface is very important to understand the geology of the formations ,wells,reservoir of hydrocarbon. After completing engineering there are many opportunities and Logging for hydrocarbon is one of the critical information for the identifying the regions of hydrocarbons, it requires the knowledge of the subsurface. A knowledge of Logging is also important for Petroleum Engineers irrespective of their working location. There are plenty to start and learn, without Logging identification of regions of pay zone and non-pay zone is difficult.
