10	The rubrics for assessment is described clearly and there is adequate weightage for Continuous Internal Evaluation and Semester End Examination.	31	43	15	6	5	Excellent & good	74%

Graphical representation of Students feedback on curriculum

1. Curriculum is contemporary and need based

2. Curriculum has good balance of Theory and Practical courses.

3. The curriculum has sufficient number of electives

4. There is adequate emphasis on employability skills/ skill development/entrepreneurship in the curriculum.

5. There is adequate emphasis on Communication Skills in the Curriculum.

6. There is adequate emphasis on Human Values, ethics and Professionalism in the Curriculum.

7. The electives offered in the curriculum suits the industry needs and technological advancements.

8. The books prescribed/listed as reference in curriculum are relevant, appropriate and updated.

9. The Program Educational Objectives, Program outcomes, Program Specific Outcomes, Course Objectives and Course Outcomes are well defined and clear.

10. The rubrics for assessment is described clearly and there is adequate weightage for Continuous Internal Evaluation and Semester End Examination.

Give your suggestions for improving the curriculum

1. Include course so that the students can get ready according to the industry requirements.
2. Please introduce department specific courses in the early semesters to help the students to prepare with competitive exams such as GATE.
3. There should be more emphasis on employability and communication skills.
4. More improvements in curriculum based on the reality for industry needs and globalization.

The following are observations on Student feedback and action need to be initiated:

1. Please design the curriculum in such a way that the students come across department related courses in the early semester itself.
2. Students get benefitted if more industry visits the student will be industry ready.
3. Mud logging is an important course for petroleum branch. Please provide much insight to the course.

1. Curriculum is contemporary and need based

2. There is adequate emphasis on employability skills/ skill development/entrepreneurship in the curriculum

3. The electives offered in the curriculum suits the industry needs and technological advancements.

Suggest any courses to be added to /removed from the curriculum

- 1.It is good no need to remove or add
- 2.Add python to all non-circuit branches as an elective
- 3.Revise material science

Suggest the skills to be acquired by our students to meet the industry requirements

- 1.MATLAB, CMG, HYSIS needed for students.
- 2.Coding must be compulsory
- 3.Aptitude and reasoning, core subjects.

Any other suggestions on Curriculum

- 1.Add some more programming languages in Curriculum
- 2.Add well design
- 3.Add energy management.

The following are observations on Employer feedback and action need to be initiated:

- 1.Employer suggested to introduce skill oriented courses.
- 2.It is better to have deep knowledge on well design and its parameters.
3. Courses on conservation of management of energy will be added to the curriculum and students should have the basic idea about energy management.
