

ADITYA ENGINEERING COLLEGE (A)

ADB Road, Aditya Nagar, Surampalem, E.G. District - 533 437

ADITYA LEO CLUB - 316B

Save Soil

Event Date: 26th May 2022.

Event Location: Aamuru Village, Peddapuram mandal.

Event Coordinators: Mr. M. Venkat, President, Aditya Leo Club-316B,
Ms. S. Jahnavi, Secretary, Aditya Leo Club-316B.

No of Students Participated: 58

About the Activity:

Saving the soil is very important for the future generations. Land is being polluted by the chemicals and pesticides. Soil will also lose its fertility due to type of crop adopted etc. To create awareness among the farmers, our students of Leo Club went to the nearby Aamuru village to discuss with the farmers regarding this type of land pollution. Some responded positively and explained the methods which they had used to cultivate the land to get better crops and our volunteers try to give an insight about the precautions to be taken to control soil pollution.

Outcomes:

- Farmers got awareness about the soil pollution and its prevention.
- Students explained the various importance organic farming to the farmers.
- In this activity, 36 farmers were actively participated and got awareness regarding soil pollution.
