Seminar on "Intelligent Bridges"

Title: Seminar on "Intelligent Bridges"

Introduction to Event:

Seminar on "Intelligent Bridges" was conducted at Aditya Engineering College (A), Surampalem by the department of CE to make faculty learn how to create nature inspired solution to complex human challenges for healthy planet. Across the world there are a huge number of legacy bridges. These aging constructions face capacity demands far beyond their original design. Through implementing an intelligent solution, civil engineers are able to predict maintenance, inform inspections with a clear view on the fault or fracture that needs addressing and above all, prevent failure. In this seminar, the main elements of intelligent bridges, one can consider in this field are discussed techniques like IIoT. IIoT solution can upgrade these bridges to ensure they continue meeting the excessive demands of today.

Event Dates: 31-05-2019 to 01-06-2019.

Number of Days: 2-Days

Co-Ordinator: Dr. Kondappagari Narasimhulu, Assoc. Professor, Department of CE.

Agenda/Event Flow:

Day:1. Introduction to intelligent bridges.

Day:2. Techniques on IIoT implements in Intelligent bridge, Product and process design

No. of Participants: 61

Experts with Designation: Dr. D. Jegatheeswaran, UG - B.E. Civil Engineering PG-M.E.

Ph.D - Civil Engineering.

Venue: Cotton Bhavan Seminar Hall (Room No: 208) Seminar Hall, Aditya Engineering College.

Staffing:

1. Ms. Dunna Kranthi, Assistant Professor.
2. Mr. Gaddam Dinesh, Assistant Professor.

Outcomes:

- Participants have become familiarized with the modern techniques in different engineering institutions and entities, depending on their field, describe Quality in Engineering as a set of scientific or design principles.
- Participants applied the knowledge gained in the designing of Innovative Structures.

Conclusive Remarks:

This Two-Day programme was conducted successfully fulfilling the goal of making faculty from CE department learn Quality in Engineering concepts. As it was one of the good opportunities, all the participants were involved and interacted well. Finally, the program successfully came to end by giving necessary knowledge to faculty in the field of Intelligent Bridges. This learning experience covered a wide breadth of topics from the key steps involved in design to how to maximize its performance besides reducing the area and delay.

Seminar on "Alternate Energies and Carbon Technologies"

Title: A One Day Seminar on "Alternate Energies and Carbon Technologies"

Introduction to Event:

A 1-Day Seminar on "Alternate Energies and Carbon Technologies" was conducted at Aditya Engineering College (A), Surampalem by the department of CE to make faculty learn how to create nature inspired solution to complex human challenges for healthy planet. Renewable energy is generated by sources that can be replenished within a relatively short period of time. Solar, wind, water, biomass, and geothermal are all renewable energy sources. This seminar introduces the faculty to such carbon materials as active carbons, carbons as catalyst supports, carbon blacks, synthetic graphites, anode carbon, carbon fibre/matrix carbon composites, as well as coal-tar pitch.

Event Dates: 29-01-2019

Number of Days: 1-Day

Co-Ordinator: Mr. Barla Konda Babu, Assistant Professor, Department of CE.

Agenda/Event Flow:

1. Introduction to Alternate Energies and Carbon Technologies.
Improve energy efficiency from source to use
2. Measure and correct energy market failures
3. Facilitate economic integration and cooperation and promote sustainable development
4. Reduce energy and carbon intensities.

No. of Participants: 64

Seminar on "Condition Assessment of railway bridges"

Title: A One Day Seminar on "Condition Assessment of railway bridges"

Introduction to Event:

A 1-Day Seminar on "Condition Assessment of railway bridges" was conducted at Aditya Engineering College (A), Surampalem by the department of CE to make faculty learn how to create nature inspired solution to complex human challenges for healthy planet. Improved and more continuous condition assessment of bridges has been demanded by our society to better face the challenges presented by aging civil infrastructure. Indeed, the recent collapses of the Hintze Ribeiro Bridge that killed 59 people, in Portugal, and the I-35W Bridge in the United States, that killed 13 people, pointed out the need for new and more reliable tools to prevent such catastrophic events. Besides those events, the financial implications and potential impact through optimal bridge management are vast. For instance, facing an ageing infrastructure, the United Kingdom Government's 2010 Infrastructure Plan signaled the need for enormous investments in infrastructures, equivalent to £200 billion over the next five years. In the last two decades, bridge condition assessment techniques have been developed independently based on two complementary approaches: Structural Health Monitoring (SHM) and Bridge Management Systems (BMSs).

Event Dates: 16-04-2019 to 16-04-2019

Number of Days: One-Day

Co-ordinator: Ms. VELICHERLA SAI SWETHA, Assistant Professor, Department of CE.

Agenda/Event Flow:

1. Introduction to Condition Assessment of railway bridges.
2. Better inspection tools for identification masonry arch bridges.

No. of Participants: 15

Experts with Designation: Mr. V. K. Dogra Associate Professor, Head, School of Civil Engg.

B. E., M. Tech. (Structural Engineering)

Experts' Profile: Mr. V. K. Dogra Associate Professor, Head, School of Civil Engg.

B. E., M. Tech. (Structural Engineering). Design of Large Span Structures with Folded Plates, Shells, Domes, Structural Design of Flat Slabs, Flat slabs with drops and pyramids.

Venue: KL Rao Bhavan Seminar hall, Aditya Engineering College.

Hospitality/Accommodation: Yes

Staffing:

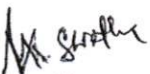

1. Mr. MONDEM NAGENDRA, Assistant Professor, Department of CE.
2. Ms. JANGAM SHANKAR, Assistant Professor, Department of CE.

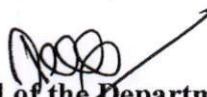

Outcomes:

- Participants have become familiarized with the modern trends in different engineering institutions and entities, depending on their field, describe "Condition Assessment of railway bridges" as a set of scientific or design principles.
- Participants applied the knowledge gained in the designing of Innovative Structures.

Conclusive Remarks:

This One-Day seminar on "Condition Assessment of railway bridges" was conducted successfully fulfilling the goal of making faculty from CE department learn the "Condition Assessment of railway bridges" concepts. As it was one of the good opportunities, all the participants were involved and interacted well. Finally, the program successfully came to end by giving necessary knowledge to faculty in the field of "Condition Assessment of railway bridges" in Civil Engineering. This learning experience covered a wide breadth of topics from the key steps involved in design to how to maximize its performance besides reducing the area and delay.

Title: A One Day Seminar on "Building Information Models (BIM)".

Introduction to Event:

A 1-Day Seminar on "Building Information Models (BIM)" was conducted at Aditya Engineering College (A), Surampalem by the department of CE to make faculty learn how to create nature inspired solution to complex human challenges for healthy planet. Building Information Modeling (BIM) is the foundation of digital transformation in the architecture, engineering, and construction (AEC) industry. As the leader in BIM, Autodesk is the industry's partner to realize better ways of working and better outcomes for business and the built world. Building information modeling (BIM) is a process supported by various tools, technologies and contracts involving the generation and management of digital representations of physical and functional characteristics of places. Building information models (BIMs) are computer files (often but not always in proprietary formats and containing proprietary data) which can be extracted, exchanged or networked to support decision-making regarding a built asset. BIM software is used by individuals, businesses and government agencies who plan, design, construct, operate and maintain buildings and diverse physical infrastructures, such as water, refuse, electricity, gas, communication utilities, roads, railways, bridges, ports and tunnels.

A Seminar on "Micro-power Generator"

Title:	Micro-power Generator
Event Date:	25-03-2019
Introduction to Event:	A Seminar on "Micro-power Generator" was conducted at Aditya Engineering College (A), Surampalem by the department of EEE to give insights to the Non Teaching faculty of EEE on Micro-power Generator.
Number of Days:	1 day
Co-ordinator:	Mr.N Rajesh, Asst. Professor, EEE department
Agenda/Event Flow:	Introduction to Types of Micro Power Generators, Power Generators Reviewed, Proposed Dual-Source Hybrid Generator, Analysis of Hybrid Generator, Conclusion.
No. of Participants:	15
Resource Person:	Mr. K. Ganapathy, Associate Professor, Department of EEE, Aditya Engineering College (A).
Resource Person's Profile:	Mr. K. Ganapathy completed M. Tech in EEE. He is working as Associate Professor in EEE from 2013. His areas of interest are Power electronics, Control Systems etc
Venue:	K L Rao Bhavan (Room No: 202)
Hospitality/Accommodation:	No
Staffing:	Mr.N Rajesh, Asst. Professor, EEE department
Outcomes:	<ul style="list-style-type: none">➤ Understand the fundamental concepts of Types of Micro Power Generators, Power Generators Reviewed.➤ Understand Proposed Dual-Source Hybrid Generator, Analysis

➤ Compare various Analysis of Hybrid Generator

Conclusive Remarks:

Department of Electrical & Electronics Engineering organized a seminar on "Micro-power Generator". Mr. K. Ganapathy, who is working as Associate Professor, EEE Department, Aditya Engineering College, was invited to be the resource person. The resource person provided great insight into the area of research in Power Electronics, Drives, Power systems and its applications. The seminar was highly appreciated by all attendees. The Q & A discussions during the seminar were very useful.

Seminar on 3D Printing and its Applications"

Title: 3D Printing and its Applications

Introduction to Event: Additive manufacturing (AM) technologies are positioned to provide a disruptive transformation in how products are designed and manufactured. AM can be applied to areas, where conventional manufacturing reaches its limitations. The technology is of interest where a complex design and manufacturing is required so as to come up with solutions. It enables a design-driven manufacturing process - where design determines production and not the vice-versa. AM allows for highly complex structures which can still be extremely light and stable. This seminar aims to make clarity on fundamentals and application of AM. The course is designed especially the basics and advances of rapid prototyping technologies and 3D printing.

Event Dates: 03-12-2018

Number of Days: 1 day

Co-ordinator: Mrs V.Pragna, Assoc. Professor, Department of ME.

Agenda/Event Flow:

Seminar on "Mechatronics and Industrial Automation"

Title: Mechatronics and Industrial Automation

Introduction to Event: Mechatronics is a multidisciplinary field of science that includes a combination of mechanical engineering, electronics engineering, computer engineering, telecommunications engineering, systems engineering and control engineering. An expert in Mechatronics field unites the principles of mechanics, electronics, control and computing to generate a simpler, more economical, efficient and reliable automated system. Mechatronics has been evolving in industry and education since its definition in 1969 and is now widely recognized around the world. Mechatronics has emerged over the past few years as a discipline in its own right. To enhance the employability and the competency of the students, the Mechatronics, Industrial Automation and Industrial Fluid Power teachers must know the industrial practices and the cutting edge technologies in this area. The present FDP is an attempt to fulfil this need through theory, demonstrations and industrial visits.

Event Dates: 06-12-2018

Number of Days: 1 day

Co-ordinator: Mr. Jagathani Rajasekhar, Asst. Professor, Department of ME.

Agenda/Event Flow:

Day-1: Basics of Mechatronics and Industrial Automation, Role of Automation Studio Software in Mechatronics System Design, Smart Technology Enabled Manufacturing- Role of Industrial Automation

1. Mr ASSM Sitaram Murthy, Asst. Professor

Outcomes:

1. Increase the awareness of Mechatronics Field
2. Able to learn Mechatronics System Design
3. Able to identify the Role of Industrial Automation in Smart Technology
4. Enabled Manufacturing To foresee requirements of IoT based Mechatronics Systems

Conclusive Remarks:

One-day Seminar on Mechatronics and Industrial Automation was conducted by Mechanical Department ,Aditya Engineering College. As it was one of the good opportunities, all the participants were involved and interacted well. Finally, the program successfully came to end by giving necessary knowledge to faculty in the field of Mechatronics. This learning experience covered a wide breadth of topics from the basics of Mechatronics ,key steps involved in system design to how to maximize its performance besides reducing the area and delay. A total of 65 participants have registered for this Seminar and gave feedback

Seminar on "Recent Trends in Manufacturing"

Title: Recent Trends in Manufacturing

Introduction to Event: The aim of this seminar is to present emerging trends in advanced materials and manufacturing process in the field of Engineering & Technology so as to make engineering fraternity aware and enthusiastic for further explorations in these areas. Apart from presenting optimization trends, it will focus on Green Composite, Smart Materials, Nano materials and advanced manufacturing processes with specialized features to meet wide range of applications like aerospace, military equipment, medical articles, and protection equipment. With all these emerging smart technological trends continue to grow, it will bring significant improvement in quality of human life and environment as well.

Event Dates: 12-12-2018

Number of Days: 1 day

Co-ordinator: Mr Rajesh Kumar, Asst. Professor, Department of ME.

Agenda/Event Flow:

Day-1: Advance materials, Nano materials and and Advanced manufacturing Processes

No. of Participants: 69

Experts with Designation: 1. Dr T.Srihari

Venue: KL Rao Bhavan Seminar Hall (Room No: 101)

Hospitality/Accommodation: No

Staffing:

1. Mrs.V.Pragna, Assoc. Professor

Outcomes:

- Understand the problem in existing manufacturing process and identify the solution for the manufacturing processes.
- Faculty will understand the recent trends in the materials
- Faculty will also understand the difficulties in manufacturing and also learn the advance techniques. And guide the PG and UG students for better projects.

Conclusive Remarks: A total of 69 participants have registered for this Guest lecture. This Seminar would serve to expose the participants to different aspects of Manufacturing Process and to enhance their knowledge Manufacturing domain.

A One Day Seminar on "MIMO ANTENNA"

Title: Microwave Components

Introduction to Event:

A One Day Seminar on "**MIMO Antenna**" was conducted at Aditya Engineering College (A), Surampalem by the department of ECE to make faculty learn how to Antenna with considering design metrics. The objective of this programme is to impart the knowledge on RF Coaxial Connectors, Adapters & Cable Assemblies Keeping this in view, the department has organized this Faculty Development programme for the benefit of the faculty.

Event Dates: 21.11.2018

Number of Days: 1 day

Co-ordinator: Mr. K.Murali Krishna,BSNL,JTO Rajahmundry.

Agenda/Event Flow:

Introduction to MIMO Antenna, Coaxial Connectors, Adapters & Cable Assemblies

No. of Participants: 64

Experts with Designation: 1. Mr. K.Murali Krishna,BSNL,JTO Rajahmundry.

Experts' Profile:

1. Mr. K.Murali Krishna,BSNL,JTO Rajahmundry.

He completed M.Tech. from JNTUK.His expertise is in implementing Antenna Design of 4G and 5G using MIMO Techniques with real-time performance on the edge devices. He had working experience with Yagi guda antenna and Paraboloid Antenna.

Venue: Cotton Bhavan Seminar Hall (Room No: 208)

Staffing:

1. Mrs.B.S.Sridevi, Assoc. Professor
2. Ms.Ch.V.Kiranmai, Asst. Professor

PRINCIPAL

Outcomes:

- Participants have become familiarized with the Antenna and Coaxial Connectors.
- Participants applied the knowledge gained in the HFSS software

Conclusive Remarks:

This 1-Day Seminar was conducted successfully fulfilling the goal of making faculty from ECE department learn the Antenna Design concepts. As it was one of the good opportunities, all the participants were involved and interacted well. Finally, the program successfully came to end by giving necessary knowledge to faculty in the field of antenna Design and Coaxial Cables. This learning experience covered a wide breadth of topics from the key steps involved in system..

Report on

A Seminar on "Cloud Computing And Its Applications" was conducted at Aditya Engineering College (A), Surampalem by the department of CSE. The main objective of this seminar is to impart the knowledge on Cloud Computing and its benefits and threats. The department has organized this seminar for the benefit of the faculty those involve in teaching CSE and IT departments.

Event Dates: 28-03-2019

Number of Days: 1 day

Co-ordinator: Mr. Kaladi Govinda Raju

Associate Professor, Dept.of CSE, Aditya Engineering College.

Agenda/Event Flow:

- Cyber infrastructure
- Service-Oriented Architecture
- Cloud -Types
- Cloud computing products and services

No. of Participants: 64

Experts with Designation: Dr. N.M.Bhatta

Professor & Dean Xavier Institute of Management.

Venue: Billgates Bhavan- Seminar Hall

Hospitality/Accommodation: No

Outcomes:

Conclusive Remarks:

This One-Day seminar was conducted successfully As it was one of the good opportunities, all the participants were involved and interacted well. Participants have become familiarized on Infrastructure service providers, advantage of the Cloud services. Participants gained knowledge and Applications in the field of cloud computing.

Title: Real world applications of Machine Learning

Introduction to Event:

A Seminar on "Real world applications of Machine Learning" was conducted at Aditya Engineering College (A), Surampalem by the department of IT to provide insight into the topic of Machine Learning. Machine learning (ML) is a type of artificial intelligence (AI) that allows software applications to become more accurate at predicting outcomes without being explicitly programmed.

Event Date: 20-02-2019

Number of Days: 1 day

Co-ordinator: Mrs. S. Neelima, Asst. Professor, Department of IT.

Agenda/Event Flow:

Fundamentals of machine learning, Supervised learning algorithms, Unsupervised learning algorithms, Neural Network models.

No. of Participants: 59

Resource Person:

Dr. A. Anupama,
Associate Professor,
Department of CSE,
GMRIT, Rajam.

Resource Persons' Profile:

Dr. A. Anupama received M.Tech in Computer Science Technology from Andhra University, and Ph.D. in Computer Science and Engineering, from Adikavi Nannaya

University. She has presented and published papers in National and International Conferences and Journals. Her research interests include Trust Evaluation Models, Deep Learning, Game Theory, Text Mining, Recommender Systems, and Algorithms in Online Social Network.

Venue: Bill Gates Bhavan (Room No: 102)

Hospitality/Accommodation: Yes

Staffing:

Mr. S. Sushma, Asst. Professor, IT department

Outcomes:

- Understand fundamental knowledge about Machine Learning.
- Applying Machine learning algorithms.

Conclusive Remarks:

Department of Information Technology organized a seminar on " Real world applications of Machine Learning ". Dr. A. Anupama, Associate Professor, CSE Department, GMRIT, Rajam, was invited as a resource person. The Speaker provided the latest applications of machine learning in the modern world. The tools used for machine learning algorithms were also discussed in the seminar. The participants actively interacted with the resource person and gained knowledge in the area of machine learning.

Title: Artificial Intelligence: An application perspective

Introduction to Event:

A Seminar on "Artificial Intelligence: An Application Perspective" was conducted at Aditya Engineering College (A), Surampalem by the department of IT to provide insight into the topic of Artificial Intelligence. Artificial intelligence (AI) is a research field that studies how to realize the intelligent human behaviours on a computer. The ultimate goal of AI is to make a computer that can learn, plan, and solve problems autonomously. Although AI has been studied for more than half a century, we still cannot make a computer that is as intelligent as a human in all aspects. However, we do have many successful applications. In some cases, the computer equipped with AI technology can be even more intelligent than us.

Event Date: 17-04-2019

Number of Days: 1 day

Co-ordinator: Mrs. S. Neelima, Asst. Professor, Department of IT.

Agenda/Event Flow:

Foundations of AI, problem formulation, problem solving, reasoning, planning, natural language understanding, computer vision, automatic programming, machine learning.

A 1-Day National Seminar on "Exploring Research and Innovations in Physics for Future Advancements"

Title: Exploring Research and Innovations in Physics for Future Advancements

Introduction to Event:

A 1-Day National Seminar on " Exploring Research and Innovations in Physics for Future Advancements" was conducted at Aditya Engineering College (A), Surampalem by the department of H&BS to make faculty learn the basics of research in the social and behavioural sciences in an informative and student-friendly way. The objective of this programme is to impart the knowledge on explores the use of electronic sources (the Internet) as a means to enhance research skills and includes discussions about scientific methods. The most common types of research models in the social and behavioural sciences are incorporated, including qualitative methods. It covers the research process, problem selection, sampling and generalizability, as well as a discussion of the measurement process. Keeping this in view, the department has organized National Seminar programme for the benefit of the faculty.

Event Dates: 06-12-2018

Number of Days: 1 day

Co-ordinator: Dr.T.Narendrudu, Professor, Department of H&BS.

Agenda/Event Flow:

Day-1: Critical Thinking and Explore Research and Innovations in Physics for Future Advancements.

No. of Participants: 65

Experts with Designation: Dr. A.Rama Krishna,
Professor in Physics,
ACET, Surampuram, AP.

Experts' Profile:

Dr. A Rama Krishna, Professor in Physics, working in Aditya College of Engineering and Technology, Surampalem, AP. He obtained Ph.D in Physics from Andhra University. He has 20 years of teaching experience.

Venue: Bill Gates Bhavan Seminar Hall (Room No: 301)

Hospitality/Accommodation: Yes

Staffing:

1. Dr. G. Chinna Ram, Assoc. Professor
2. Ms. G. Ratna Kumari, Asst. Professor

Outcomes:

- Presents the basics of research in the social and behavioral sciences in an informative and student-friendly way.

Conclusive Remarks:

This One Day programme was conducted successfully fulfilling the goal of making faculty from H&BS department learn the concepts of Exploring Research and Innovations in Physics for Future Advancements. As it was one of the good opportunities, all the participants were involved and interacted well. Finally, the program successfully came to end by giving necessary knowledge to faculty in the field of Research. This learning experience covered a wide breadth of topics. "Exercises" and "Test Yourself" sections challenge participants and think about and discuss topics and improve their problem-solving skills. Resources help master the process of writing a research paper. This training showcased a wide variety of examples to illustrate the key points in understanding and discussions of the research process, problem selection, sampling and generalizability, and the measurement process make research exploration.

Title: Linear Algebra and its Applications

Introduction to Event:

A National seminar on "Linear Algebra and its Applications" was conducted at Aditya Engineering College (A), Surampalem by the department of H&BS to give detailed review and explanation of the linear algebra domain in which all mathematical concepts and structures concerned with linear algebra. The objective of this programme is to introduce many applications like mathematical physics to modern algebra and its usage in the engineering and medical fields.

Event Dates: 12-12-2018

Number of Days: 1 day

Co-ordinator: G.Venkata Ramana, Assoc.Professor, Department of H&BS.

Agenda/Event Flow:

Day-1: Review the basic concepts of Linear algebra and in many engineering applications

No. of Participants : 61

Experts with Designation: 1. Dr.A.V.Papa Rao,

Assistant Professor, Department of Mathematics ,

JNTUK University College of Engineering, Vizianagaram

Experts' Profile:

Dr.A.V.Papa Rao,

He is Assistant Professor of Mathematics, JNTUK university college of Engineering Vizianagaram. He has 16 years of teaching experience in engineering mathematics and 8 years of research experience. He has published 18 technical papers in reputed journals. His area of interest in the field of mathematics includes mathematical modelling in biology, ecology and medicine

Title: Seminar on "Bio-diversity and its Conservation"

Introduction to Event:

A National seminar on "Bio-diversity and its Conservation" was conducted at Aditya Engineering College (A), Surampalem by the department of H&BS to make faculty learn Bio-diversity and its conservation. The objective of this programme is to impart the knowledge on applications of Bio-diversity and its conservation.

Event Dates: 12-09-2018

Number of Days: 1 day

Co-ordinator: Dr. S. Aruna Kumari

Agenda/Event Flow:

Day-1: Applications of Bio-diversity and its application.

No. of Participants: 63

Experts with Designation: 1. Dr. V. Surya Naryana,

Professor, Department of H&BS,

Aditya Engineering College, Surampalem.

Dr.V.Surya Naryana,

He completed Ph.D. on Environment and Bio-Technology in 1996, APS University, MadhyaPradesh . He has published 35 research papers in various national and international journals. He has 25 years of Experience at UG and PG levels and Engineering colleges.

Venue: K.L.Rao Bhavan Seminar Hall (Room No: 301)

Hospitality/Accommodation: No

Staffing:

1. Dr.S.Arunakumari, Professor

A Two Day Seminar on " Industry 4.0 "

Introduction to Event

A Two days Seminar on " Industry 4.0" was conducted at Aditya Engineering College (A), Surampalem by the department of MBA to acquire knowledge about current Trends and developments in relevant field Industry 4.0 is a term for the fourth industrial revolution: the digitization and automation of manufacturing. We are in the midst of a fundamental shift in the way products are produced, and it's deeply tied to the future of the Internet of Things (IoT).

Advances in networking, machine learning, data analytics, robotics, 3D printing, and other technologies are making vast improvements on industrial processes and reducing our dependence on human labor and decision-making. By leaning into digital solutions, manufacturing can reduce human error, shorten time to market, and increase the speed at which industrial processes can adapt to new information.

Event Dates: 08-09-2017 to 09- 09-2017

Number of Days: 2 days

Co-ordinator: V.Suneetha

5-Day Seminar on " Industry Opportunities"

Introduction to Event:

A 5-Day Seminar on "Industry Opportunities" was conducted at Aditya Engineering College (A), Surampalem by the department of MBA to acquire knowledge about current technological developments in relevant field. The objective of this programme is to impart the knowledge on Industries are part of the secondary activity. Secondary activities or manufacturing converts raw material into products of more value to people. Industry refers to economic activities concerned with the production of goods, extraction of services and provision or services. Hence, we can say that Industries. Industrial systems are made up of input, processes, and output. The input of raw materials, labour, land, power, and other infrastructure. The process is the plan the manufacturer has of how to turn raw materials into finished products of value. And finally, the output is the end of the product from which the income earned it.

Event Dates: 23.04.2019 to 27.04.2019

Number of Days: 5 days

Co-ordinator: K.Srinivas,

Assistant Professor, Dept. of MBA, Aditya Engineering College.

Agenda/Event Flow:

- Day-1 Supply chain management professionals.
- Day-2 Production quality control manager:
- Day-3 Supply Chain Management Process Optimization.
- Day-4 The ability to organize business processes in order to satisfy customer needs.
- Day-5 Predictive and preventive maintenance, design of work methods.

No. of Participants: 58

Experts with Designation: Dr. N. Udaya Bhaskar

Assistant Professor, Adikavi Nannaya University, Rajahmundry.

Experts' Profile:

Dr.N.Udaya Bhaskar is currently working as an Assistant Professor and Head in the Department of Management Studies, Adikavi Nannaya University, Rajahmundry, India. His doctoral dissertation was in the area of retail service quality, he completed M.Phil., and M.B.A. in

Venue:-101 (Seminar Hall)

Outcomes:

Participants have become familiarized to Capital Markets and its Industry Opportunities, Steps Participants applied the knowledge gained in the design of Development of Indian Economy as a brief

Conclusive Remarks:

This 5-Day programme was conducted successfully fulfilling the goal of making faculty from Computer networks system design concepts and security issues in it. As it was one of the good opportunities, all the participants were involved and interacted well. Finally, the program successfully came to end by giving necessary knowledge to faculty in the field of Industry Opportunities. The resource person presented the topics with relevant examples and provided learning resource to all the participants.

Venue: BGB Seminar Hall (Room No: 102)

Hospitality/Accommodation: No

Staffing:

Mr.H.Gautam, Asst. Professor, MCA department

Outcomes:

- Understand the fundamental concepts of Machine Learning and its applications
- Understand Neural networks, Perceptron, Artificial Neural networks
- Applying Machine learning algorithms.

Conclusive Remarks:

Department of MCA organized a seminar on "Machine Learning and its applications ". K.Raj Kumar, who is working as Associate Professor, CSE Department, Raghu Engineering College, was invited to be the resource person. The Speaker provided the latest applications of machine learning in the modern world. The tools used for machine learning algorithms were also discussed in the seminar. The participants actively interacted with the resource person and gained knowledge in the area of machine learning. The seminar was highly appreciated by all attendees. The Q & A discussions during the seminar were very useful.

Report on

A Seminar on "Big Data Analytics "

Title: Big Data Analytics

Introduction to Event:

A Seminar on "Big Data Analytics " was conducted at Aditya Engineering College (A), Surampalem by the department of MCA to give insights to the faculty of MCA, CSE & IT on Big Data Analytics. Big Data Analytics is useful to allows software applications to become more accurate at predicting outcomes without being explicitly programmed.

Event Date: 05-02-2019

Number of Days: 1 day

Co-ordinator: Mrs. T.Satya, Assoc. Professor, Department of MCA.

Agenda/Event Flow:

Introduction to Big Data Analytics , Develop various data structures using java collection framework. Demonstrate Building blocks of Hadoop. Choose map reduce approach to solve big data Problems

No. of Participants: 62

Resource Person: R.Shiva Kumar, Associate
Professor, Department of CSE,
Sasi Engineering College.

Resource Persons' Profile:

R.Shiva Kumar completed M. Tech in CSE. He is working as Associate Professor in CSE from 2015. His areas of interest are Machine Learning, Block Chain Technologies, Cyber Security, Ethical Hacking etc.
