Date: 10-09-2018

No. of students participated: 100

Internal Complaint Committee organized a seminar for the girl students and lady staff members in the college. The event was marked by "Suicide Prevention-Across the life span" as suicide is a desperate attempt to escape suffering that has become unbearable. Blinded by feelings of self-loathing, hopelessness, and isolation, a suicidal person can't see any way of finding relief except through death. But despite their desire for the pain to stop, most suicidal people are deeply conflicted about ending their own lives. They wish there was an alternative to suicide, but they just can't see one in order to come out of such feelings and not to hold it inside one have to share it with their family, friends and be confident to handle such situations Dr. Niveditha shared her views on related issues. All students have actively participated in the event.

Report on Awareness program on “POSH”

Date: 26/11/2016

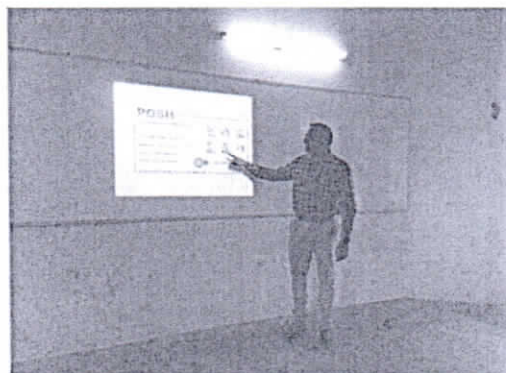

Venue: Room no 119, Visveswaraya Bhavan

No of Participants: 60

Name of Chief Guest: Dr. N. Rajeswararao

An awareness program was conducted on “POSH” on 26th November 2016 at Visveswaraya bhavan. The Chief Guest was Dr.N.Rajeswararao . The Session covered basic topics like 'What is sexual harassment?' and various actions that may be categorized as sexual harassment. And also discussed in detail on various duties of the individual to curb harassment and shows how the redress mechanism works to handle sexual harassment complaints. Many instances of workplace violence occur out of sight of the general public, in one-on-one situations, resulting in emotional rather than physical injury to the victim, and produce extensive costs both for employers and for the victim. He discussed the two principal types of sexual harassment in the workplace as ‘quid pro quo’ harassment and the creation of a hostile working environment. Quid pro quo (meaning ‘this for that’) harassment refers to a demand by a person in authority for sexual favors in order to obtain or maintain certain job benefits. It forces workers to choose between giving in to sexual demands or losing employment benefits. This is also referred to as ‘sexual blackmail.’ The second type of sexual harassment can have adverse effect on the work environment. Guest concluded the session by recommending

1. Implementation of strong mechanism for timely redressal of sexual harassment.
2. Conduction of awareness programs to make staff & students aware of prohibition & prevention of sexual harassment.
