16-10-2022

Event Report for One Day Workshop on "Stress Management"

Title	: Stress Management
Speaker	: Dr. Naveen Kumar Cherupelly
Objective	: To equip Students with the knowledge, skills, and strategies necessary to effectively identify, reduce, and cope with stress in their lives.
Venue	: Ramanujan Bhavan, Seminar Hall, Room No.- 005
Date	: 15-10-2022
No. of Students Enrolled	: 86
Time	: 10:00 A.M – 1:00 P.M

Outcomes:

- Students will gain a better understanding of the causes and sources of stress in their lives. They will learn to identify the signs and symptoms of stress, allowing for early recognition and intervention.
- Students will learn a variety of stress reduction techniques such as deep breathing exercises, mindfulness meditation, progressive muscle relaxation, and time management strategies. These techniques can help individuals reduce stress levels in real-time.
- The workshop will teach participants effective coping strategies to deal with stressors. This may include problem-solving skills, communication skills, and assertiveness training, enabling individuals to address stressors proactively.
- Students will be encouraged to make healthier lifestyle choices, such as incorporating regular physical activity, maintaining a balanced diet, and ensuring adequate sleep, as these can significantly impact stress levels.

06-02-2023

Event Report On

One day Guest Lecture on "Self-Confidence Building"

Title	: Self-Confidence Building
Speaker	: Dr. J M Kanthi Thilaka
Objective	: To equip students with the knowledge and tools necessary to enhance their self-confidence, leading to personal and professional growth.
Venue	: Ramanujan Bhavan, Seminar Hall, Room No. - 005
Date	: 04-02-2023
No. of Students Enrolled	: 68
Time	: 10:00 A.M – 1:00 P.M

Outcomes:

- Students will gain a deeper understanding of their strengths, weaknesses, and areas where self-confidence may be lacking. Through self-reflection exercises and assessments, they will identify specific areas for improvement.
- Students will learn practical techniques and strategies to overcome self-doubt and negative self-talk. They will explore cognitive-behavioral techniques and mindfulness practices that can help build a more positive self-image.
- Building self-confidence often involves improving communication skills. Participants will develop the ability to assertively express their thoughts, ideas, and needs, leading to better interpersonal relationships and more effective communication.

REPORT

on

One day Seminar on "Impact of Salesforce on industry 4.0"

Title	: Impact of Salesforce on industry 4.0
Speaker	: Mr. Marni Srinu, Salesforce Trainer, Technical Hub
Objective	: To understand the possible threats in securing the data assets in Information and Communication technology.
Venue	: Ground Floor, Room No. 005, Seminar Hall, Ramanujan Bhavan
Date	: 14/02/2023
Time	: 10 A.M. to 1.00 P.M.
No. of Students Enrolled	: 128

The speaker, Mr. Marni Srinu was introduced to the audience. He explained about the capability of salesforce to cover all communication channels and points of contact between vendors, marketing, service agents and customers, and being a high-value CRM. He discussed the promises and challenges in the industry 4.0 era with the students very interactively.

Outcomes:

- Understand the fundamental concepts of the Salesforce platform, including its architecture and capabilities.
- Create and customize simple apps and objects, such as custom fields, formulas, and validation rules.
- Understand how to manage data within Salesforce, including importing, exporting, and deduplicating records.
- Understand the role of security and access in the Salesforce platform.
- Understand how to use Salesforce to automate business processes and improve efficiency.

REPORT

on

One day Seminar on "Scratch Programming using Python."

Title	: Scratch Programming using Python
Speaker	: Mr. R.S.S Sudhir, Program Manager, Technical Hub
Objective	: To understand the Python framework for creating web applications.
Venue	: Ground Floor, Room No. 005, Seminar Hall, Ramanujan Bhavan
Date	: 17/05/2023
Time	: 10 A.M. to 1.00 P.M.
No. of Students Enrolled	: 122

The speaker, Mr. R.S.S Sudhir, was introduced to the audience. He gets introduced with coordinates, pen feature and broadcast block. He addressed the scope of artificial intelligence in building projects using text, sound, image, vision training and speech recognition using scratch modules.

Outcomes:

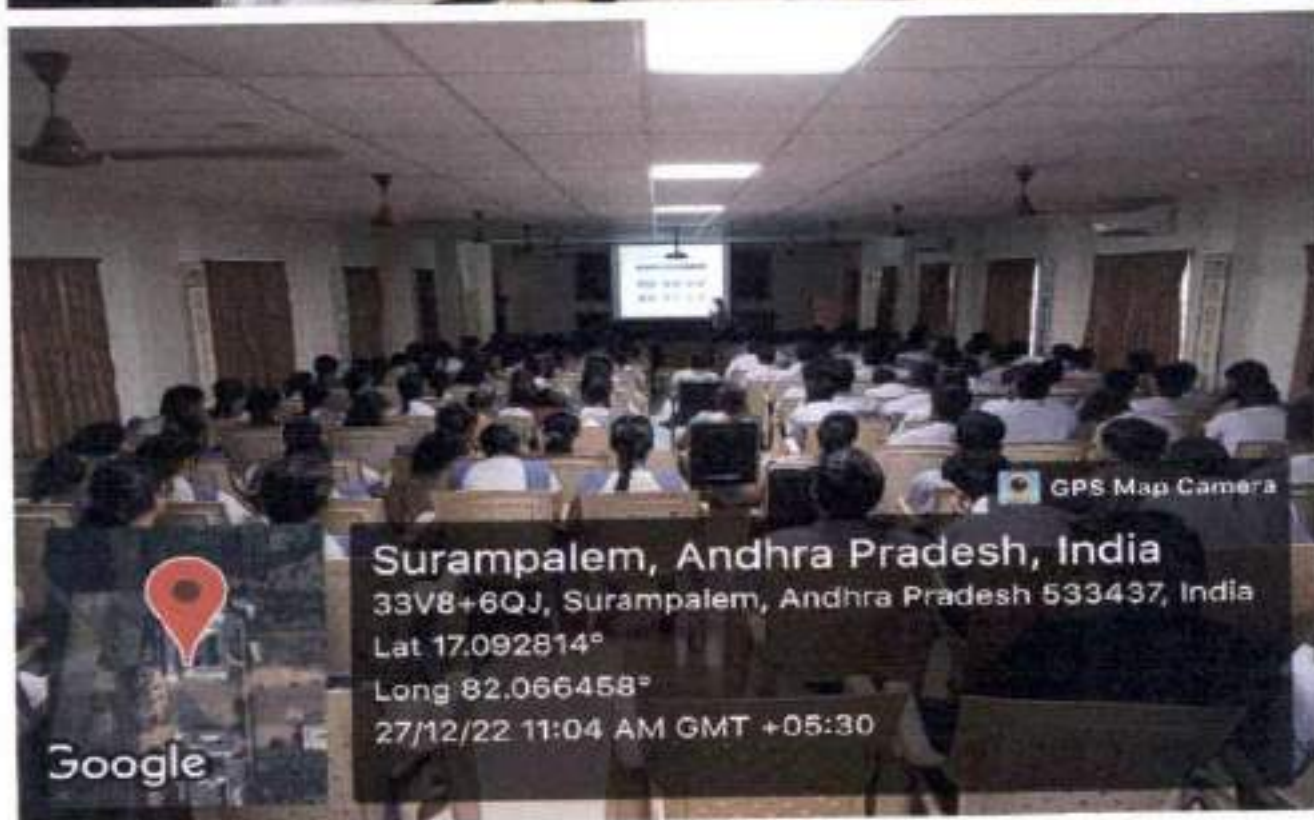

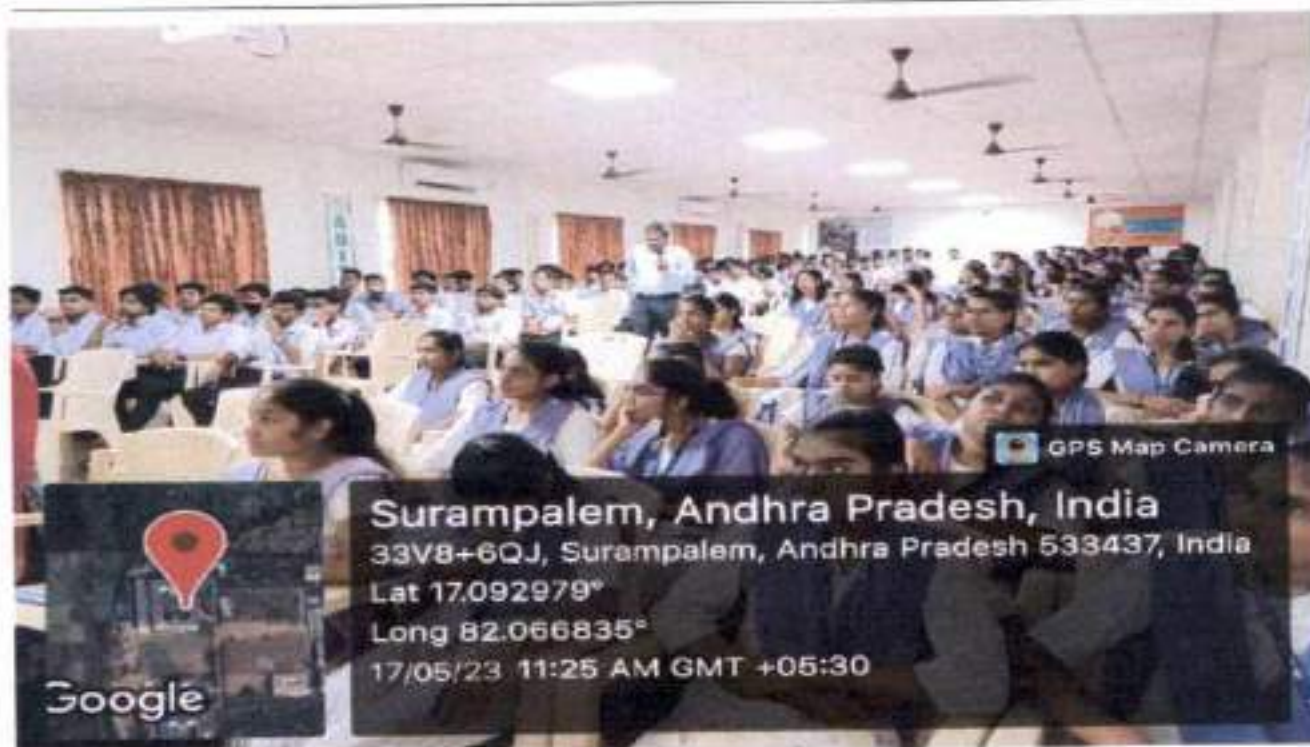

- Learn the foundation of Computer Science using Scratch programming.
- Become an expert in Scratch programming.
- Learn to solve problems by creating app, games, websites.
- Develop creative thinking to solve the problems.
- Improve analytical thinking while creating your projects on Scratch.
- Create engaging games, animation & apps with block-based programming.
