EVENT REPORT

Title of the Event : One Day Workshop on " 3D Printing Technology "

Resource Persons : Mr.A.Sai
Co-Founder and CTO of Trigid Innovations Pvt.Ltd.

Date(s) of Event :07-04-2022

Aim of Event : To increase prototype making skills
To increase designing skills
To aware about rapid prototyping Technology
To learn about industry 4.0 Technologies

Event Report

Rapid prototyping and 3D printing technologies are emerging trends and comes under Industrial Revolution 4.0. SAC Tech club associated with Entrepreneurship Development Cell organized one day hands on experience in 3D printing technology with the support from Trigid Innovations Pvt.Ltd incubated start-up in Aditya College of Engineering.

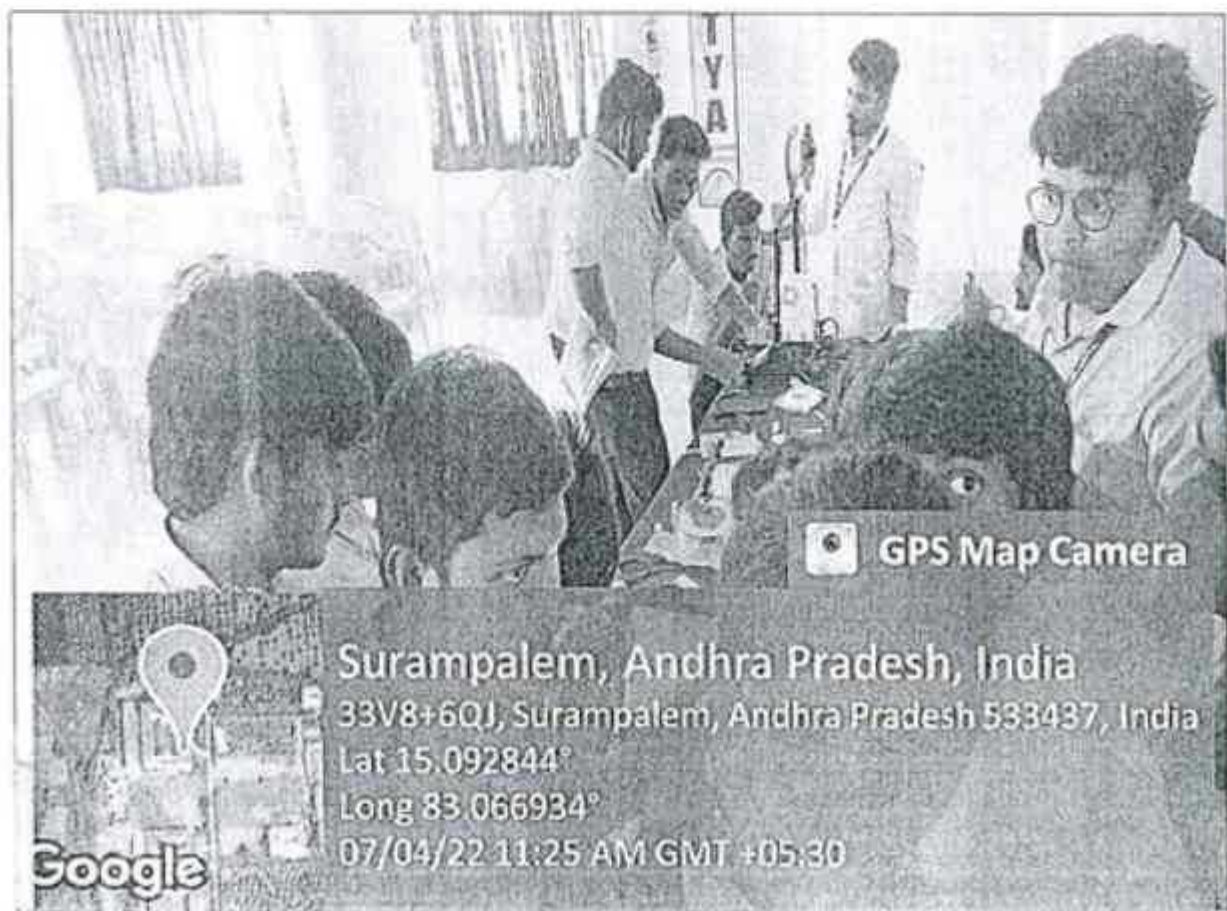

Students learnt about process of 3D printing technology and parts of the 3D printer, its assembly, Design and slicing, STL file conversion and creating G-Codes for printing the file.

EVENT REPORT

Dt: 15-11-2021

Title of the Event	:	Industrial Visit of Entrepreneur Club Members
Planned to Visit	:	SNKS Lead Manufacture Industry, Peddapuram
Date of Event	:	12-11-2021
Aim of the Event	:	To Know how the industry is functioning in technical and non-technical aspects

Event Report:

An One day Industrial Visit held on 12.11.2021 to the Entrepreneurs Club members i.e To learn how the industries work and to interact with the all technical and non-technical managers to know how the industry functioning?

How the production charts had prepared?

how the distribution channels created?

How they are doing marketing?

How the product reaching the customers?

What are the huddles faced in COVID lockdown, and

How they restore in business? How they got funding and bank loans?

Learning From the visit?

Students has learn about the industry functioning and raw material handling, how the industry is functioning in Technical and non-technical aspects. How the Support has received from the government and non-government agencies to start an industry? Etc.

EVENT REPORT

Title of the Workshop : **FPGA Implementation for Digital Circuits**
Resource Persons : **Mr. P.Murali,**
ECIL,
Hyderabad.
Date(s) of Workshop : **12-11-2021 & 13-11-2021**

Aim of Workshop :

In this lecture, discussed how digital electronics has evolved over the years, from discrete logic to highly integrated circuits. For this module, the digital technology that we will be focusing on is called "Field Programmable Gate Arrays" or FPGAs. This lecture will introduce you to the idea of such digital devices, and in particular, you will learn about the particular device that you will be using in the Second Year Laboratory later in the term to support this module.

The first FPGA was introduced by Xilinx in 1985. It has arrays of logic blocks which are programmable. It is surrounded by PROGRAMMABLE ROUTING RESOURCES, which allows the user to define the interconnections between the logic blocks. It also has lots of very flexible input and output circuits (programmable for TTL, CMOS and other interface standards). Nowadays, there are two major players in the FPGA domain: Xilinx and Altera (now part of Intel). These two company dominate 90% of the FPGA market with roughly equal share.

A Two Day Workshop on FPGA Implementation for Digital Circuits Report

A workshop on FPGA Implementation for Digital Circuits was organized for II year B.Tech Students, the resource person was Mr. P.Murali ECIL, Hyderabad. Around 80 students attended this workshop. This workshop helped them to get better understanding of the subject. The speaker discussed about the importance of this, in various applications. His explanation of the subject helped the students to understand the topic in a better way. The program started with the introduction to the speaker by the Head of the Department Dr.G.Ramakrishna, the vote of thanks was given by Mr.G.Veerpandu Incharge HOD.
